

TIPS FOR HEAT AND SEATBELT SAFETY!

NEVER LEAVE PETS OR PEOPLE IN A LOCKED CAR - the temperature inside can quickly become dangerous!

SCHEDULE OUTDOOR ACTIVITIES SAFELY – pick the coolest times of the day when possible, and always remember to take breaks often to rest and cool off.

ALWAYS WEAR SUNSCREEN AND STAY HYDRATED when playing outside. Keep water nearby and drink often, even if you don't feel thirsty.

ALWAYS FASTEN SEATBELT PROPERLY BEFORE THE VEHICLE MOVES.

- a.A properly fitted shoulder belt should lie snugly across the center of the chest and shoulder; it should not lie on your neck or be slipping off your shoulder.
- b.Lap belts should lie snugly across the upper thighs or low on your hips, not on your stomach.

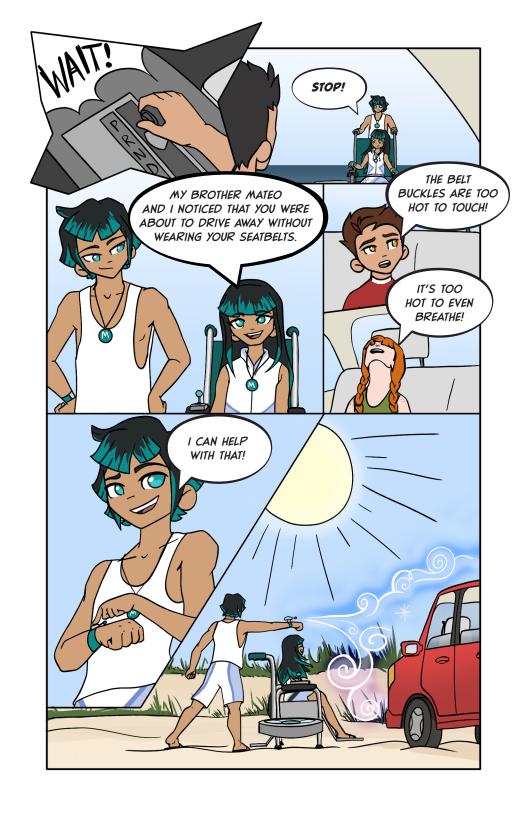

c. Make sure younger siblings in car seats are secured properly first

THIS OR THAT?

There are many important things to remember when playing outside and when riding in the car to keep yourself safe. Always remember to keep cool, stay hydrated, wear sunscreen and dress appropriately while playing outside in the sun! When in the car, make sure yourself and all other passengers are safely and appropriately buckled in before moving. Choose the safest option in each scenario below:

SUNSCREEN MATEO BOOSTER

BUCKLE UP! KNOW THE STAGES

It is important to make sure children ages 12 and younger are always properly buckled in the back seat of a car using a car seat, booster seat, or seat belt. Children no longer need to use a booster seat when the seat belt fits them properly. A seat belt fits properly when the lap belt is across the upper thighs (not the stomach) and the shoulder belt is across the center of the shoulder and chest (not across the neck or face, and not off the shoulder).

Match the child with the appropriate car seat:

✓ Infants and toddlers should be buckled in a rear-facing car seat with a harness, in the back seat.

TIPS!

- **HELPFUL** ✓ After outgrowing the rear-facing car seat, use a forward-facing car seat.
 - ✓ When children outgrow their forward-facing car seat, they should be buckled in a booster seat with a seat belt, in the back seat, until the seat belt fits properly.
